AMERICAN FLAG O.RE SHIPMENT

Opens the Year With 150 Tons in the Market.

NEVADA'S LATEST SENSATION

RICH FIND SOUTH OF REVEILLE CAUSES STAMPEDE

A consignment of 150 tons of ore from American Flag company's mines at Park City will be on the market today tomorrow. Manager John G. Rhodin down from the Park to dispose of the t and will likely return to the mine amorrow. He reports everything moving smoothly at the property and says nat shipments will be coming along with spilarity from now on. Nearly 256 tons of fine ore has been shipped from the aine during the past month and a limitar amount will most likely be coming along from month to month until Manager John G. Rhodin

I is reached he looks that disclosures, the cotting is being done in the bottom the shaft at the present time, but it the intention of Manager Rhodin to some more sinking there in the near ture, as he wishes to have plenty of om in which to take care of the surpart which comes with the spring from in which to take care of the surface water which comes with the spring thaws. While the snowfall is not particularly heavy as yet, the storm of last week, made sleighing good between the mines and the sampling mill below town, making hauling much easier.

The camp in general, Mr. Rhodin says, is looking up, and he predicts a lively year and the adding of several new producers.

ANOTHER NEVADA FIND.

Ore Carrying \$800 Per Ton Causes Rush to Country South of Reveille.

Rush to Country South of Reveille.

News has just come out from Tonopah that a most sensational strike was made a short time ago by Jack May in the Kawitch range of mountains and at a point about forty miles south of Reveille. A chunk of ore weighing 190 pounds is now on exhibition and a wild rush for the new Eldorado is said to have commenced. The ore assays \$800 per ton and the ledge from which it was taken it said to be a strong one, with every indication of permanency.

As near as can be determined by reference to the government's latest map of Nevada, this discovery must be close to the southern extremity of the range of mountains named and, as the crow files, about sixty miles almost due west of Hike. It is farther than that in a southeasterly direction from Tonopah, and the

Hiko. It is farther than that in a southeasterly direction from Tonopah, and the
easter way, it would seem, to get into
the region, from this side at least, would
be via Caliente, De Lamar and Hiko,
making the latter place, or the Gardner
ranch in the Pahranagut valley, six miles
south of Hiko, a base of supplies.

The Hatfield party, which left here a
few weeks ago, ought to be out in that
region somewhere at the present time, as
had also some of the other parties known
to have selected that route for getting
into the new gold regions. As this is said
to be the best, part of the year to travel
in that section, it is expected that many
strikes will be made during the coming
three months.

IN THE CACTUS TUNNEL.

Tapping of Water Course on , Mine Side Delays Its Completion.

Side Delays Its Completion.

After a run up to spend New Year's lay at home, M. M. Johnson, manager of he Newhouse Cactus bonanza, in Beaver county, left for camp again last night. Mr. Johnson reported Sunday that some lelay had been experienced in making connection in the long operating tunnel through tapping of a water-course on the mine side at the eleventh hour.

Two or three times during the driving of this tunnel from the mine side the office of the country of the side of the country of the standard of the standard of the country of the standard of the standard

AFTER ZINC MINES.

Ore Corporation Preparing to Enter Woodriver Country.

The Wood River Zine company has just been incorporated in Portland, Gre. under the laws of that state, with a capital of \$150,000. Ladd & Tilton are its bankers; H. W. Dunckiey, cashier of Ladd & Tilton's bank is the treasurer; J. J. Chambrean, general auditor of the Ladd Metals company, is the auditor and secretary, and John Williams, chief of staff of the Ladd Metals company, is the general manager, says the Woodriver Times.

staif of the Ladd Metals company, is the general manager, says the Woodriver Times.

The company just organized by Mr. Willams is to consider the taking over of either of two or three propositions in this region. If it can be interested, the result will be very beneficial to this region, as it is composed of men who are never speculators, who have practically unifmited means and are willing to use them in the development of the mineral resources of the great northwest, and whose technical ability is of the very highest grade.

whose technical ability is of the very highest grade.

Mr. Williams is a gentleman of wide experience whose standing in engineering, in metallurgical, in mining and in financial circles is second to none. For nearly seven years he had charge of the surveys for the Nicaragua canal; for a still longer period he was the ore buyer of the Kansas Smelting works, and as such bought probably fully \$20,600,000 worth of Wood river orea. Latterly he has been the chief of staff of the Ladd Metals company that is operating a smelter at Mineral, another at Landore, Ida., and other mining and reduction works elsewhere on the Pacific slope and coast and in Alaska.

THEIR FAVORITE DISHES. What Some Famous People Liked Best to Eat.

(What to Eat.) Queen Victoria is said to have given mutton the preference in the line of meats, and was nowise offended if offered "the cold shoulder." Queen Elizabeth was very fond of

roast goose. She was dining on this when the good news was brought to her on Michaelmas day that the Spanish fleet had been driven back. And ever since that fowl has been to the English feast of St. Michael what the turkey is to our Thanksgiving day. Henry VIII was extremely fond of beans, and imported a Dutch gardner to raise them, as in his day they were only used by the upper classes—"a dish to set before the king." Napoleon's favorite dish was a bean salad, much cheaper in his time, but equally good. Louis XV was extravagantly fond of a dish made of the eggs of various birds,

which cost \$100. George Eliot, while at Brookbank, used frequently to walk to the farm where she bought her vegetables, and ing and butter making, who was somewhat surprised at the great novelist's on the best of terms. SYLVANITE AT DIAMONDFIELD.

NOT FAR APART

Japanese Soldiers Can Hear the Russians Talking.

ARMIES LIVE UNDER GROUND

INTERESTING REPORT FROM KUROKI'S HEADQUARTERS.

General Kuroki's Headquarters, Dec. 31.—(Via Tien Tsin, Jan. 2).—The positions of the Japanese and Russian Armies have not been materially changed during the past two months. In few places are the lines more than a mile apart, and they were so close before the Japanese left that loud talking in the Russian trenches can be plainly heard. Though the Russians became very quiet during the first half of December, they have renewed the bombardment of the Japanese center and left in the past fortnight and they have selected several points to which

have selected several points to which they devote the most attention.

The Japanese usually lie low in their trenches and remain silent. Often several hundred shells will be fired in a day without doing ary damage, though occasionally a shell strikes. occasionally a shell strikes an exposed group or kills some careless soldier. Almost every hour of the day or night artillery is booming or rifles are popping somewhere along the lines.

Frequent Sorties Made. The Russian bombardment usually egins before noon and continues until begins before noon and continues until sunset, but it is often resumed from midnight to the breaking of day. Frequent sorties are made by the companies or by a detachment when the fighting becomes severe. Both armies are using the hand grenade as one of their regular weapons for close fighting. Reconnoitering forces constantly patrol the country on both flanks to guard against offensive movements and to protect the auxiliary lines of communication.

The Russians obtain quantities of supplies from Sinmintin, thirty miles west of Mukden, where the Chinese branch railway ends, and they must protect the roads leading to that point, while the Japanese guard the highways to the Yalu river. The barren surface of the land and the remarkably clear atmosphere make surprises almost im-

Hills Bare and Rocky.

The fields are without shrubbery or other cover for the troops, and the hills are bare and rocky. There are no forests within the area of operations and trees are few and widely scattered The only cover for moving troops are the deep ravines which seam the coun-try. There is seldom a cloud in the sky, and the nights, even when the moon is not in evidence, are bright and starlit and starlit

and stariit.

The weather continues to be evenly cold with no sudden change.

All the soldiers on the front line live in underground huts, which are heated with charcoal. Field Marshal Oyama, General Kodama, his chief of staff, and General Fukushima occupy an ordinary Chinese house in a small village. General Kuroki's headquarters are in a similar establishment, while the foreign attaches live on a comparatively luxurious scale in a Russian building.

Cornstalk Houses.

Cornstalk Houses.

The soldiers beyond the first line are quartered in Chinese houses and ingenious structures of cornstalks and earth. The Chinese share their dwellings with the army and are paid rent for them, besides receiving good prices for all produce and extraordinary wages for their labor. The transport department hires an army of carts, animals and coolies, paying four times the normal prices, and skilled labor commands corresponding rates. The

the normal prices, and skilled labor commands corresponding rates. The prices of coal and food, however, have risen proportionately.

The women and children who deserted their homes during the Russian occupation have gradually returned until almost the entire normal population is back. Although they at first received the Japanese with distrust, good relations have now been established and tions have now been established and

Roads at Their Best.

The roads are at their best in the winter time, being hard and smooth, and consequently the transport department is taking advantage of this condition to accumulate quantities of sup

Charcoal burning is one of the army's chief activities and the sparse timber chief activities and the sparse timber is being consumed at a rate which is likely to leave the country almost bare in the spring. The Chinese do not object to this because the timber is bought and not confiscated. The smoke of kilns is seen everywhere.

The Japanese soldiers are all clothed in furs and heavy overceats, and the equipments and supplying of the army continues as it has been since the Japanese landed in Korea nearly a year

anese landed in Korea nearly a year ago to be almost above criticism.

A Lesson in Manners.

BELLCOMPANY'S **NEW RATES**

The Management Sends a Circular Letter to Salt Lake Business Men.

In accordance with the proposition made to the citizens' committee on Christmas eve, the Rocky Mountain Beil Telephone company is sending out a circular letter to the business men of Salt Lake City, giving notice of a readjustment of business rates which goes into effect from January 1. The text of the circular is as follows:
"As a good public servant, the Rocky "As a good public servant, the Rocky Mountain Bell Telephone company has undertaken to place the telephone within reach of all the people of Salt Lake City and the intermountain region. An unusually large number of page 1999. City and the intermountain region. An unusually large number of new telephones have been installed during 1901, particularly in Salt Lake City, where there are now between 7,000 and 8,000 telephones actually connected. We have added recent'y 3,000 new residence subscribers to our Salt Lake exchange, a large proportion of them at the low rate of \$1 a month, and each new subscriber has increased the value of the business man's telephone, and the number of calls daily made through it. Every business man will appreciate that it would be impossible to get a development of over 7,000 telephones in a city of 70,000 people without offering a low minimum rate which is really less than the cost of the service, and less than the cost of the service, and every business man will also appreciate that a service that offers the business man over 7,000 connections costs more

man over 7,000 connections costs more and is worth more than one that supplies less than that number.

"We have demonstrated that our system of rates, which charges the biggest user the maximum price and the littlest user the minimum price, although it gives a bare profit, means the development of the great telephone business, which is equally desired by the community and the company. More extensive telephone facilities are needed by business men in order to keep ed by business men in order to keep pace with the residence development, and while the present rates are below the average, cost and value being con-sidered, we are prepared to offer fur-ther discounts for the sake of develop-ing our business facilities as we have developed our residence telephones. developed our residence telephones.

"Under a five-year contract, which shall be for the mutual protection of the subscriber and the company, we offer a discount of \$18 a year, and under fer a discount of \$18 a year, and under a one yéar's contract a discount of \$12 a year, for individual line unlimited business service. We also offer a discount of \$12 a year on individual line unlimited residence service, if paid at the office on or before the 10th day of the first month of the quarter. The party line rate will remain unchanged party line rate will remain unchanged but from January 1, 1905, individual line rates will be as follows: "Business—Five-year contract, \$72 per

year; one-year contract, \$78 per year; twelve hundred calls per year, \$48 per Residence-Paid at the office before

Residence—Paid at the office before the 10th day of the first month of each quarter, \$36 per year.

"The company will gladly furnish information showing to what extent business telephones are overloaded, so that subscribers may contract for such additional equipment as their business demands. demands. "ROCKY MOUNTAIN BELL TELE-

PHONE CO. Certain of One Thing.

(Chicago Tribune.) "Well, little boy," said the kind-hearted dentist, "does the tooth hurt you?"
"I don't know whether it's the tooth or whether it's just me," groaned the boy. 'But I'm blamed sure that if you'll separate us the pain'il go away!"
Still, he howled lustily when the dentist effected the separation.

Good Reason For Envy.

(Cleveland Plain Dealer, They were bragging about their home They were brassing towns.
"I, said one, proudly, "came from Cincinnati."
"I envy you," asserted the Cleveland man.
"Indeed?"
"Yes, I'm just going there."

HAPPY RESULTS OBTAINED

By the Use of the New Scalp Anti-By the Use of the New Scaip Antiectic.

It wouldn't take long to number the hairs in the heads of some people, the reason being they haven't many to number. In most instances, however, the fault is their own. A germ at the root soon plays have with the most luxuriant growth and causes it to fade and fall out. A remedy for this has recently been discovered, called Newbro's Herpicide, that acts by destroying the germ that does the damage, besides removing all impurities from the scalp. In addition it permits new life and vigor to enter the scalp, and happy results are sure to be obtained from its use. Try it. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Go., Detroit, Mich.

Stories of Places.

(Chicago News.) A heavy fall of snow in Scotland a few weeks ago caused the river Tay to rise suddenly. One of the big dams in the for the elec-stream overflowed with the result that year, will the salmon lying in the numerous pools at once made a rush to get higher up the at once made a rush to get higher up the stream. A workman engaged in carting stones from the bed of the river was astonished at the moving mass of salmon passing. So nhemonenal was the shoal that the carter deemed it wise to stop this charge in the middle of the ford to the fish to pass. The salmon swam like lightning through the wheels of the cart and around the horse's legs. In the space of a few minutes several hundred passed this particular point.

this particular point.

"Why Little Japan?" asks the critic. "Its population totals at least 5,000,000 more than that of Great Britain. If you include Formosa and the other annexations of 1885 the Japanese people numbered 46,000,000 six years ago and they were then increasing by nearly 500,000 a year, Japan also has some very big towns. Tokio has a population of about 1,500,000. Osaka between 800,000 and on there are about twenty others with a population of more than 50,000. Japan has all the other marks of 'greatness,' including a beer tax and a law of divorce. For every four couples married one is divorced."

"It is much easier to demand a constitu "It is much easier to demand a constitu-tional government, as the subjects of the carr of Russia have done, than it will be to get it." remarks a critic. "Every gen-eral election in England costs at least \$5,000,000. Every seat after such an appeal to the general electorate represents a pri-vate outlay of \$7,500, of which sum the winning candidate has paid at least \$3,500. And then his outlay is only beginning."
